

V Group Inc. – Global LegalTech Capabilities.

Partnering with law firms through innovative AI-driven LegalTech, Managed IT, Cybersecurity and Tech Agnostic System Integraton solutions across offshore, onsite, nearshore, and hybrid delivery models.

V Group Inc

Presentation Roadmap: LegalTech Expertise & Innovation

Explore V Group's trusted LegalTech solutions and collaborative delivery frameworks

1 LegalTech Expertise: Over 25 years in IT business

2 Delivery Models: Onsite, Offshore, Nearshore, Hybrid.

3 Innovation & AI: Advanced AI driving legal workflow efficiency. COE of Microsoft and NVIDIA

4 Cybersecurity & GRC: Compliance and Frameworks - NIST, ABA, GDPR, HIPAA, SOC2

5 Onboarding & Governance: Agile offshore team integration

6 Proven Success: Case studies of transformative innovation

7 Strategic Partnership: Accelerating legal tech transformation

8 Services Offering : With KPI & SLA

Trusted LegalTech Partner with Global Expertise

Delivering tailored, scalable LegalTech solutions for top law firms worldwide

Certified Expertise

A Microsoft ISV Gold Partner, NVIDIA with over 25 years of dedicated Tech experience.

Trusted Clients

Proven track record serving Top Law Firms, Immigration, and Employment Law firms with dependable solutions.

Global Delivery

Flexible engagement models including Onsite, Offshore, Nearshore, and Hybrid to meet diverse client needs. 24X7 On Call

Rapid Scalability

Core-Flex resourcing enables fast team expansion within 1–2 weeks, ensuring agile project delivery.

Comparing Global Delivery Models for LegalTech

Optimizing collaboration and cost for secure LegalTech solutions

Model	Availability	Skills Access	Cost	Efficiency	Best Fit
Onsite	US & UK offices	Direct collaboration, Tech Consultants, senior architects, CIO & CISO-as-a-Service	Premium	High	High-security projects, consulting, LegalTech
Offshore	India & Philippines	Large certified talent pool, 24x7 Availability	40–60% lower	High	Microsoft Tech, AI/ML, RPA, SOC/NOC, Application Dev.
Nearshore	Europe / LATAM * (On Need basis)	GDPR compliance, real-time overlap	10–20% lower	Moderate	Hybrid augmentation on need basis
Hybrid	Mix of all	Optimized skill-cost balance, flexible scale-up/down	30–50% lower	High	Enterprise transformation, long-term operations

Advanced LegalTech Integration and AI Solutions

Empowering law firms with tailored, seamless, and intelligent technology services

System Integration Across Leading Platforms

Unified CRM, DMS, billing

Custom Development for Legal Workflows

Case management, cloud migration

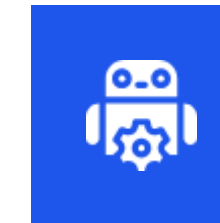

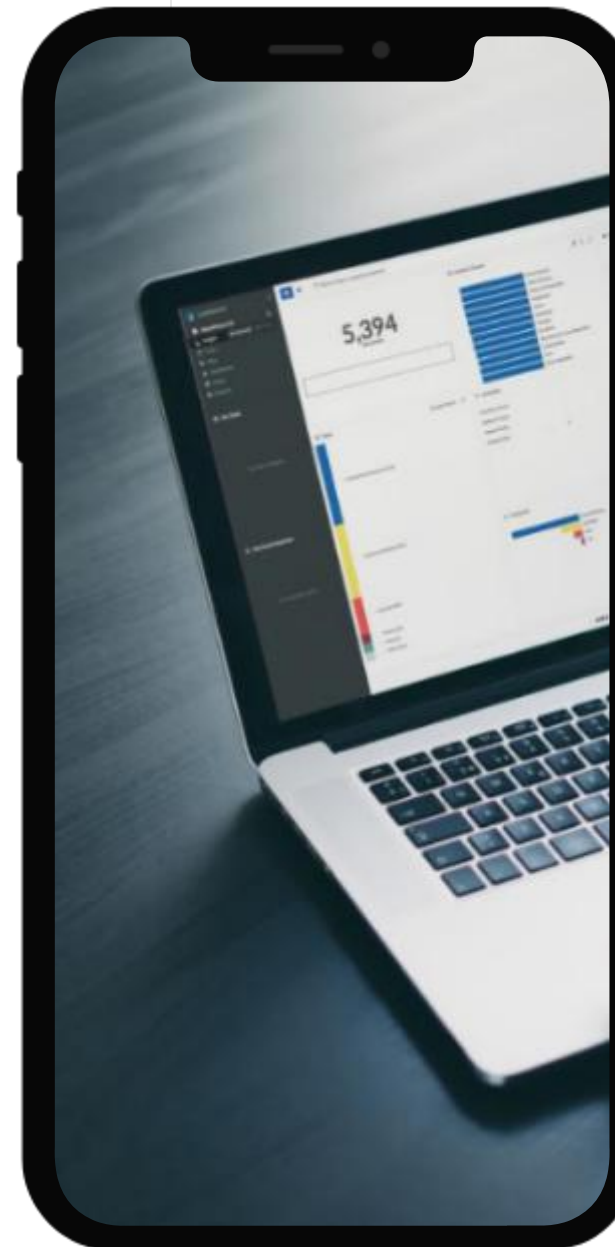

AI & GenAI Solutions Enhancing Efficiency

Agentic AI, Gen AI, Smart contracts, NLP bots

API Integration for LegalTech Products

iManage, Net Documents, Aderent

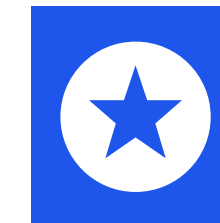

Automation (RPA) Streamlining Operations

Billing, intake, USCIS checks

Extended Teams with Agile Delivery

Certified, scalable resources

Differentiator: Legal Compliance Frameworks

ABA, HIPPA, NIST, SOC2

Differentiator: Hybrid Teams

Cost Efficient, Fixed cost and Flexi Scale up/down

AI Innovations Transforming Legal Workflows: Partner driven program

Enhancing efficiency and cost savings in legal processes through advanced AI technologies

Cost savings of 30–40% reinvested into innovation and strategy **3**

Drives inhouse strategic growth

Agentic AI orchestrates autonomous multi-agent legal workflows **2**

Coordinates complex tasks smoothly

AI accelerates contract review using NLP and predictive analytics **1**

Speeds decision-making processes

Collaborative AI solutions tailored to law firm needs **4**

Ensures client-centric delivery

AI-driven workflows reduce manual review time significantly **5**

Frees attorney time effectively

Generative AI automates drafting and summarization of legal documents **6**

Boosts accuracy and speed

Embedded Cybersecurity & GRC for Legal Tech

Comprehensive, compliant security tailored for law firms

■ 24x7 SOC/NOC Monitoring for Continuous Protection

Our SIEM and MSSP frameworks ensure **continuous threat detection and response**, maintaining uninterrupted security vigilance tailored for legal environments.

■ Zero Trust Network Architecture with DLP Policies

Implementing **Zero Trust principles**, including data loss prevention, encrypted document sharing, watermarking, and access controls, to protect sensitive legal data effectively.

■ Compliance with Legal Industry Standards

Adherence to **ABA, GDPR, HIPAA, SOC2** guidelines ensures all cybersecurity measures meet rigorous legal and regulatory requirements for client protection.

■ Embedded Security Within Delivery Models

Cybersecurity is **integrated seamlessly** into all delivery models, emphasizing proactive protection rather than reactive bolt-on solutions for legal technology platforms.

■ Zero Trust Network Architecture with DLP Policies

Implementing **Zero Trust principles**, including data loss prevention, encrypted document sharing, watermarking, and access controls, to protect sensitive legal data effectively.

■ Advanced Technical Safeguards for Secure Access

Utilizing **VPN with MFA, encrypted tunnels, endpoint management, virtual desktops, bastion hosts, network segmentation, and centralized patching** to reinforce secure and reliable infrastructure.

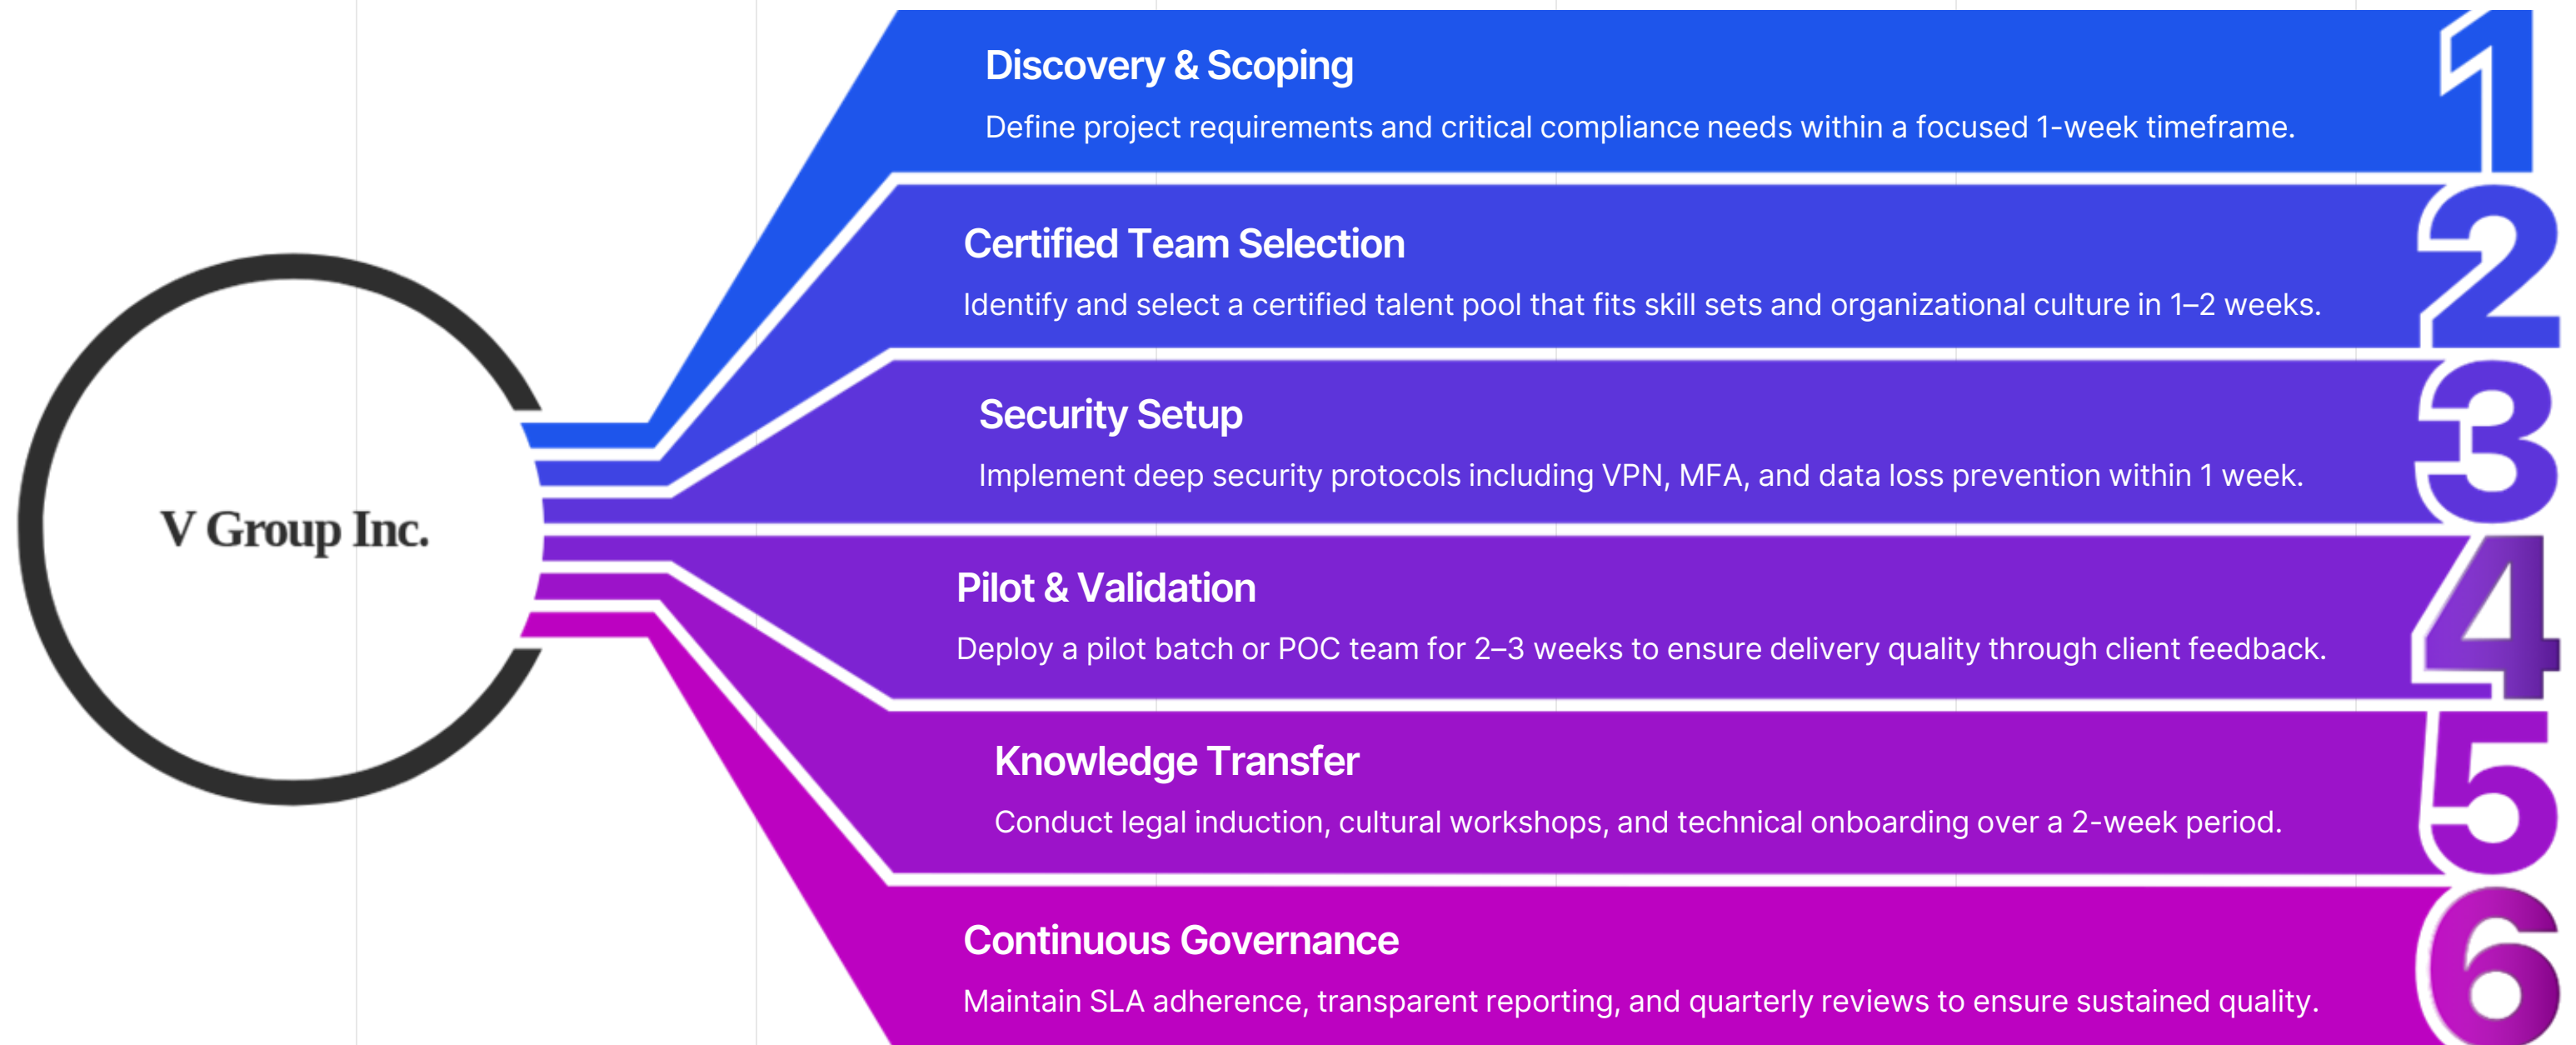

■ Comprehensive Risk Mitigation & Continuous Governance

Geo-diverse teams, real-time incident alerts, and ongoing governance practices minimize operational risks and ensure resilience in dynamic legal environments.

Offshore Team Onboarding & Governance Excellence - Our Approach.

Ensuring compliance and agile delivery for LegalTech partners

Supported Legal Products and Integrations

Core platforms enabling secure, AI-driven legal workflows

Product / Platform	Description / Integration
NetDocuments	Secure cloud Document Management System (DMS), email management
iManage	Document collaboration, AI-powered search
IntAPP	Additional integration support
Clio	Additional integration support

Service Commitments for High Availability

Key performance metrics ensuring reliability and rapid recovery

Metric	Commitment	Notes
Uptime	99.9%	Hosted apps, email, DMS
Critical Response	< 1 hour	24/7 for P1 incidents
Backup Retention	30 days	Encrypted daily backups
RTO / RPO	2 hrs / 15 min	Rapid recovery + minimal data loss
Client Satisfaction (CSAT)	≥ 90%	Measured Yearly

Ensure your legal technology infrastructure never falters—partner with us for unmatched support and service reliability today.

Customer Feedback: Delivering 99.9% uptime, rapid incident response, secure backups, and consistent 90%+ CSAT for core legal platforms.
